STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CORZINE (for himself and Mr. LAUTENBERG):

S. 825. A bill to establish the Crossroads of the American Revolution Na-

tional Heritage Area in the State of New Jersey, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. CORZINE. Mr. President, today, along with Senator LAUTENBERG, I am introducing legislation, the Crossroads of the American Revolution National Heritage Area Act, to establish the Crossroads of the American Revolution National Heritage Area in the State of New Jersey. I am proud to be joining my New Jersey colleagues, Representatives RODNEY FRELINGHUYSEN and RUSH HOLT, who have introduced this legislation in the House of Representatives, with the support of the entire New Jersey delegation.

This legislation recognizes the critical role that New Jersey played during the American Revolution. In fact, New Jersey was the site of nearly 300 military engagements that helped determine the course of our history as a Nation. Many of these locations, like the site where George Washington made his historic crossing of the Delaware River, are well known and preserved. Others, such as the Monmouth Battlefield State Park in Manalapan and Freehold, and New Bridge Landing in River Edge, are less well known and are threatened by development or in critical need of funding for rehabilitation.

To help preserve New Jersey's Revolutionary War sites, this legislation would establish a Crossroads of the American Revolution National Heritage Area, linking about 250 sites in 15 counties. This designation would authorize \$10 million to assist preservation, recreational and educational efforts by the State, county and local governments as well as private cultural and tourism groups. The program would be managed by the non-profit Crossroads of the American Revolution Association.

Simply put, we are the Nation that we are today because of the critical events that occurred in New Jersey during the American Revolution and the many who died fighting there. By enacting the Crossroads of the American Revolution National Heritage Area Act of 2005, we will pay tribute to the patriots who fought and died in New Jersey so that we might become a Nation free from tyranny.

In the 107th Congress, I was proud to see the Senate approve this legislation as part of a bipartisan package of heritage area bills. Unfortunately, the bill was not approved in the House of Representatives. I will work even harder in the 109th Congress to see that this important legislation passes both houses and goes to the President's desk for his signature. I hope my colleagues will support this legislation, and I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 825

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Crossroads of the American Revolution National Heritage Area Act of 2005".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the State of New Jersey was critically important during the American Revolution because of the strategic location of the State between the British armies headquartered in New York City, New York, and the Continental Congress in the city of Philadelphia, Pennsylvania;

(2) General George Washington spent almost half of the period of the American Revolution personally commanding troops of the Continental Army in the State of New Jersey, including 2 severe winters spent in encampments in the area that is now Morristown National Historical Park, a unit of the National Park System;

(3) it was during the 10 crucial days of the American Revolution between December 25, 1776, and January 3, 1777, that General Washington, after retreating across the State of New Jersey from the State of New York to the State of Pennsylvania in the face of total defeat, recrossed the Delaware River on the night of December 25, 1776, and went on to win crucial battles at Trenton and Princeton in the State of New Jersey;

(4) Thomas Paine, who accompanied the troops during the retreat, described the events during those days as "the times that try men's souls";

(5) the sites of 296 military engagements are located in the State of New Jersey, including—

(A) several important battles of the American Revolution that were significant to—

(i) the outcome of the American Revolution; and

(ii) the history of the United States; and

(B) several national historic landmarks, including Washington's Crossing, the Old Trenton Barracks, and Princeton, Monmouth, and Red Bank Battlefields;

(6) additional national historic landmarks in the State of New Jersey include the homes of—

(A) Richard Stockton, Joseph Hewes, John Witherspoon, and Francis Hopkinson, signers of the Declaration of Independence;

(B) Elias Boudinout, President of the Continental Congress; and

(C) William Livingston, patriot and Governor of the State of New Jersey from 1776 to 1790;

(7) portions of the landscapes important to the strategies of the British and Continental armies, including waterways, mountains, farms, wetlands, villages, and roadways—

(A) retain the integrity of the period of the American Revolution; and

(B) offer outstanding opportunities for conservation, education, and recreation;

(8) the National Register of Historic Places lists 251 buildings and sites in the National Park Service study area for the Crossroads of the American Revolution that are associated with the period of the American Revolution;

(9) civilian populations residing in the State of New Jersey during the American Revolution suffered extreme hardships because of—

(A) the continuous conflict in the State;

(B) foraging armies; and

(C) marauding contingents of loyalist Tories and rebel sympathizers;

(10) because of the important role that the State of New Jersey played in the successful outcome of the American Revolution, there

is a Federal interest in developing a regional framework to assist the State of New Jersey, local governments and organizations, and private citizens in—

(A) preserving and protecting cultural, historic, and natural resources of the period; and

(B) bringing recognition to those resources for the educational and recreational benefit of the present and future generations of citizens of the United States; and

(11) the National Park Service has conducted a national heritage area feasibility study in the State of New Jersey that demonstrates that there is a sufficient assemblage of nationally distinctive cultural, historic, and natural resources necessary to establish the Crossroads of the American Revolution National Heritage Area.

(b) PURPOSES.—The purposes of this Act are—

(1) to assist communities, organizations, and citizens in the State of New Jersey in preserving—

(A) the special historic identity of the State; and

(B) the importance of the State to the United States;

(2) to foster a close working relationship among all levels of government, the private sector, and local communities in the State;

(3) to provide for the management, preservation, protection, and interpretation of the cultural, historic, and natural resources of the State for the educational and inspirational benefit of future generations;

(4) to strengthen the value of Morristown National Historical Park as an asset to the State by—

(A) establishing a network of related historic resources, protected landscapes, educational opportunities, and events depicting the landscape of the State of New Jersey during the American Revolution; and

(B) establishing partnerships between Morristown National Historical Park and other public and privately owned resources in the Heritage Area that represent the strategic fulcrum of the American Revolution; and

(5) to authorize Federal financial and technical assistance for the purposes described in paragraphs (1) through (4).

By Mr. BURNS:

S. 826. A bill to provide that the conveyance of the former radar bomb scoring site to the city of Conrad, Montana, is not subject to reversion; to the Committee on Armed Services.

Mr. BURNS. Mr. President, I take the floor today to ask that we finally help the town of Conrad, MT continue its successful program of providing affordable housing for our seniors. I renew my commitment to making sure this occurs.

In the defense authorization act of 1994, the Air Force conveyed an unused 42-acre parcel of land to the city of Conrad, which then built a retirement home for Montana seniors. The home has been a great success, and the city of Conrad has begun the process of expanding the facility.

When the city proposed using the land as collateral for the home, it ran into a problem. In the quitclaim deed where we conveyed the land to the city, we included a customary reversion clause that would transfer the property back to the Department of Defense in the event that the land stopped being used for the purpose of housing or public recreation.

While the intent of this clause is and will continue to be met, a small city like Conrad must use the title to the land to secure construction loans, rather than issuing a municipal bond or some other measure to raise funds used by larger cities. The reversion clause prevents banks from using the land to secure the loan, as the city does not have clear title to the land.

Therefore, I ask the Senate to approve this modification to public law 103-160, section 2816 regarding the 42 acre site of the Blue Sky Villa, which removes the reversion clause for this

land, giving the city of Conrad clear title. I thank the Senate for its consideration of this important matter for our senior citizens in Montana.

By Mr. FEINGOLD (for himself, Mr. SCHUMER, and Mrs. CLINTON):

S. 827. A bill to prohibit products that contain dry ultra-filtered milk products, milk protein concentrate, or casein from being labeled as domestic natural cheese, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. FEINGOLD. Mr. President, I am pleased to re-introduce the Quality Cheese Act of 2005. This legislation will protect the consumer, save taxpayer dollars and provide support to America's dairy farmers, who have taken a beating in the marketplace in recent years.

When Wisconsin consumers have the choice, they will choose natural Wisconsin cheese. But some in the food industry have pushed the Food and Drug Administration (FDA) to change current law, which would leave consumers not knowing whether cheese is really all natural or not.

If the Federal Government creates a loophole for imitation cheese ingredients to be used in U.S. cheese vats, some cheese labels saying "domestic" and "natural" will no longer be truly accurate.

If USDA and FDA allow a change in Federal rules, imitation milk proteins known as milk protein concentrate, casein, or dry ultra filtered milk could be used to make cheese in place of the wholesome natural milk produced by cows in Wisconsin or other parts of the U.S.

I was deeply concerned by these efforts to change America's natural cheese standard. This effort to allow milk protein concentrate and casein into natural cheese products flies in the face of logic and could create a loophole that could allow unlimited amounts of substandard imported milk proteins to enter U.S. cheese vats.

While the industry proposal was withdrawn, my legislation would permanently prevent a similar back-door attempt to allow imitation milk as a cheese ingredient and ensure that consumers could be confident that they were buying natural cheese when they saw the natural label.

Over the past decade, cheese consumption has risen at a strong pace due in part to promotional and marketing efforts and investments by dairy farmers across the country. Year after year, per capita cheese consumption has risen at a steady rate.

These proposals to change our natural cheese standards, however, could decrease consumption of natural cheese by raising concerns about the origin of casein and milk protein concentrate. Use of such products could significantly tarnish the wholesome reputation of natural cheese in the eyes of the consumer and have unknown effects on quality and flavor.

This change could seriously compromise decades of work by America's dairy farmers to build up domestic cheese consumption levels. It is simply not fair to America's farmers or to consumers. After all, consumers have a right to know if the cheese that they buy is unnatural. And by allowing milk protein concentrate milk into supposedly natural cheese, we are denying consumers the entire picture.

Allowing MPCs or dry ultra-filtered milk into natural cheeses would also harm dairy producers throughout the United States. Some estimate that the annual effect of the change on the dairy farm sector of the economy could be more than \$100 million.

The proposed change to our natural cheese standard would also harm the American taxpayer. If we allow MPCs to be used in cheese, we will effectively permit unrestricted importation of these ingredients into the United States. Because there are no tariffs and quotas on these ingredients, these heavily subsidized products would quickly displace natural domestic dairy ingredients.

These unnatural domestic dairy products would enter our domestic cheese market and could depress dairy prices paid to American dairy producers. Low dairy prices, in turn, could result in increased costs to the dairy price support program as the federal government is forced to buy domestic milk products when they are displaced in the market by cheap imports. So, at the same time that U.S. dairy farmers would receive lower prices, the U.S. taxpayer would pay more for the dairy price support program.

This change does not benefit the dairy farmer, consumer or taxpayer. Who then is it good for?

It would benefit only the subsidized foreign MPC producers out to make a fast buck by exploiting a system put in place to support our dairy farmers.

This legislation addresses the concerns of farmers, consumers and taxpayers by prohibiting dry ultra-filtered milk, casein, and MPCs from being included in America's natural cheese standard.

Congress must shut the door on any backdoor efforts to undermine America's dairy farmers. I urge my colleagues to pass my legislation and prevent a loophole that would allow changes that hurt the consumer, taxpayer, and dairy farmer.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 827

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Quality Cheese Act of 2005".

SEC. 2. NATURAL CHEESE STANDARD.

(a) FINDINGS.—Congress finds that—

(1)(A) any change in domestic natural cheese standards to allow dry ultra-filtered milk products, milk protein concentrate, or casein to be labeled as domestic natural cheese would result in increased costs to the dairy price support program; and

(B) that change would be unfair to taxpayers, who would be forced to pay more program costs;

(2) any change in domestic natural cheese standards to allow dry ultra-filtered milk products, milk protein concentrate, or casein to be labeled as domestic natural cheese would result in lower revenues for dairy farmers;

(3) any change in domestic natural cheese standards to allow dry ultra-filtered milk products, milk protein concentrate, or casein to be labeled as domestic natural cheese would cause dairy products containing dry ultra-filtered milk, milk protein concentrate, or casein to become vulnerable to contamination and would compromise the sanitation, hygienic, and phytosanitary standards of the United States dairy industry; and

(4) changing the labeling standard for domestic natural cheese would be misleading to the consumer.

(b) PROHIBITION.—Section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341) is amended—

(1) by striking "Whenever" and inserting "(a) Whenever"; and

(2) by adding at the end the following: "(b) The Commissioner may not use any Federal funds to amend section 133.3 of title 21, Code of Federal Regulations (or any corresponding similar regulation or ruling), to include dry ultra-filtered milk, milk protein concentrate, or casein in the definition of the term 'milk' or 'nonfat milk', as specified in the standards of identity for cheese and cheese products published at part 133 of title 21, Code of Federal Regulations (or any corresponding similar regulation or ruling)."

By Mr. GRASSLEY (for himself, Mr. SCHUMER, Mr. CORNYN, Mr. LEAHY, Mr. CRAIG, Mr. FEINGOLD, Mr. ALLEN, Mr. DURBIN, Mr. GRAHAM, Mr. DEWINE, and Mr. ALLARD):

S. 829. A bill to allow media coverage of court proceedings; to the Committee on the Judiciary.

Mr. GRASSLEY. Mr. President, I rise today to introduce the "Sunshine in the Courtroom Act." This bill will give Federal judges the discretion to allow for the photographing, electronic recording, broadcasting and televising of Federal court proceedings. The Sunshine in the Courtroom Act will help the public become better informed about the judicial process. Moreover, this bill will help produce a healthier judiciary. Increased public scrutiny will bring about greater accountability and help judges to do a better job. The sun needs to shine in on the Federal courts.

Allowing cameras in the Federal courtrooms is consistent with our Founding Fathers' intent that trials be held in front of as many people as choose to attend. I believe that the First Amendment requires that court proceedings be open to the public and, by extension, the news media. The Constitution and Supreme Court have said, "what transpires in the courtroom is public property." Clearly, the American values of openness and education

are served by using electronic media in Federal courtrooms.

There are many benefits and no substantial detrimental effects to allowing greater public access to the inner workings of our Federal courts. Fifteen States conducted studies aimed specifically at the educational benefits derived from camera access courtrooms. They all determined that camera coverage contributed to greater public understanding of the judicial system.

Moreover, the widespread use in State court proceedings show that still and video cameras can be used without any problems, and that procedural discipline is preserved. According to the National Center for State Courts, all 50 states allow for some modern audiovisual coverage of court proceedings under a variety of rules and conditions. My own State of Iowa has operated successfully in this open manner for over 20 years. Further, at the Federal level, the Federal Judicial Center conducted a pilot program in 1994 which studied the effect of cameras in a select number of Federal courts. That study found "small or no effects of camera presence on participants in the proceeding, courtroom decorum, or the administration of justice."

I would like to note that even the Supreme Court has recognized that there is a serious public interest in the open airing of important court cases. At the urging of Senator SCHUMER and myself, Chief Justice Rehnquist allowed the delayed audio broadcasting of the oral arguments before the Supreme Court in the 2000 presidential election dispute. The Supreme Court's response to our request was an historic, major step in the right direction. Since then, the Supreme Court has allowed for audio broadcasting in other landmark cases. Other courts have followed suit, such as the live audio broadcast of oral arguments before the D.C. Circuit in the Microsoft antitrust case and the televising of appellate proceedings before the Ninth Circuit in the Napster copyright case. The public wants to see what is happening in these important judicial proceedings, and the benefits are significant in terms of public knowledge and discussion.

We've introduced the Sunshine in the Courtroom Act with a well-founded confidence based on the experience of the States as well as State and Federal studies. However, in order to be certain of the safety and integrity of our judicial system, we have included a 3-year sunset provision allowing a reasonable amount of time to determine how the process is working before making the provisions of the bill permanent.

It is also important to note that the bill simply gives judges the discretion to use cameras in the courtroom. It does not require judges to have cameras in their courtroom if they do not want them. The bill also protects the anonymity of non-party witnesses by giving them the right to have their voices and images obscured during testimony.

So, the bill does not require cameras, but allows judges to exercise their discretion to permit camera in appropriate cases. The bill protects witnesses and does not compromise safety. The bill preserves the integrity of the judicial system. The bill is based on the experience of the States and the Federal courts. And the bill's net result will be greater openness and accountability of the nation's Federal courts. The best way to maintain confidence in our judicial system, where the Federal judiciary holds tremendous power, is to let the sun shine in by opening up the Federal courtrooms to public view through broadcasting. And allowing cameras in the courtroom will bring the judiciary into the 21st century. I urge my colleagues to join me in supporting the Sunshine in the Courtroom Act.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

By Mr. BINGAMAN:

S. 831. A bill to provide for the establishment of a Health Workforce Advisory Commission to review Federal health workforce policies and make recommendations on improving those policies; to the Committee on Health, Education, Labor, and Pensions.

Mr. BINGAMAN. Mr. President, I rise today to introduce legislation that will help address the devastating health workforce shortages we will be facing in this country. Health care expenditures represent 15.3 percent of U.S. gross domestic product. These expenditures are expected to rise to 18.7 percent by 2014. As health care needs grow, society faces increasing challenges related to the health care workforce. By 2020, 29 percent nursing positions are projected to be vacant. From 2000–2010, an additional 1.2 million aides will be needed to cover projected growth in long-term care positions and replacement of departing workers. An aging health care workforce means that by 2008, almost half of the workforce will be 45 years of age and older. Currently, U.S. providers rely on international medical graduate and foreign trained nurses to fill some critical roles, while continuing to face a shortage of providers in health professional shortage areas. Health workforce challenges need to be analyzed, understood, and alleviated, to ensure better access and better quality of care.

The Health Workforce Advisory Commission Act of 2005 will help to create a national vision to serve as a roadmap for investing in the health workforce. Through analysis and recommendation, an 18 member commission of national workforce and health experts will provide insight regarding the solutions necessary to enhance our health workforce. Key areas for commission focus will include forecasting of supply and distribution of physicians, nurses and other health professionals, studying the national and global impact of workforce policies related to the utilization of internationally trained practitioners, and developing appropriate measures to ensure diversity of the U.S. health workforce. The commission will make recommendations to Congress on health workforce policy.

It is vital that the U.S. take new measures to ensure that workforce challenges are met and overcome for current and future generations. By undertaking and overcoming the challenges before us, we will enhance both the quality of healthcare and the quality of life, provide access nationwide, and build a health care system that is consistent with our current and future health and economic needs. The Health Workforce Advisory Commission can serve a new and integral role for our health care system and our society, now and in the future.

I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

By Mr. BINGAMAN (for himself, Mr. SMITH, Mr. BAUCUS, Mr. GRASSLEY, Mr. AKAKA, Mr. SCHUMER, and Mr. PRYOR):

S. 832. A bill to amend the Internal Revenue Code of 1986 to provide taxpayer protection and assistance, and for other purposes; to the Committee on Finance.

MR. BINGAMAN. Mr. President, I rise today to introduce the “Taxpayer Protection and Assistance Act of 2005” with Senators SMITH, BAUCUS, GRASSLEY, AKAKA, SCHUMER and PRYOR. This legislation combines various provisions intended to ensure that our nation’s taxpayers are better able to prepare and file their tax returns each year in a fashion that is fair, reasonable and affordable. As long as we continue to require taxpayers to determine their own tax liability each year, we have a responsibility to ensure that we do not leave taxpayers vulnerable to abuses from those masquerading as tax profes-

sionals. This is bad for everyone including the majority of tax return preparers who provide professional and much needed services to taxpayers in their communities. I encourage my colleagues to work with us to ensure that the improvements that would be brought about by this bill are in place before the next filing season begins.

As I previously stated, this legislation is composed of several provisions. The first section would create a \$10 million matching grant program for lower income tax preparation clinics much like the program we have currently have in place for tax controversies. I have seen first hand the impact free tax preparation clinics can have on taxpayers and their communities, as we are fortunate to have one of the best state-wide programs in the nation in New Mexico. TaxHelp New Mexico, which was started only a couple of years ago, helped 17,000 New Mexicans prepare and file their returns last year, resulting in over \$14 million in refunds—all without refund anticipation loans. This year they are on pace to pass their goal of helping 25,000 elderly and economically disadvantaged taxpayers with free tax preparation and electronic filing of their returns. This program, started by Fred Gordon and Robin Brule from TVI and Carol Radosevich and Jeff Sterba from PNM, has turned into one of the best delivery mechanisms for public assistance I have seen in the state. This program has been fortunate to receive additional funding from the Annie E. Casey Foundation and the McCune Foundation. In order to continue to grow, though, we need to do our part in Congress and give them matching funding so they can continue their outreach into new communities in need of assistance.

The second set of provisions contained in this legislation would ensure that when taxpayers hire someone to help them with their tax returns they can be sure that the person is competent and professional. The first part of the bill makes sure that an enrolled agent, a tax professional licensed to practice before the IRS, shall have the exclusive right to describe him or herself as an “enrolled agent,” “EA,” or “E.A.” In New Mexico, enrolled agents play an important role in helping taxpayers with problems with the IRS and with preparing their returns. They have earned the right to use their credentials, and we should prohibit those who have not taken the rigorous exams and do not have their experience to confuse the public into thinking they too have the same credentials. The second part of the bill requires the Treasury to determine what standards need to be met in order for a person to prepare tax returns commercially. Like all other tax professionals, this will require people who make a living preparing tax returns to pass a minimum competency exam and take brush up courses each year to keep abreast of tax law changes. The majority of tax

return preparers already meet these standards, and it is clear that those who do not need to in order to prepare returns for a fee. The Treasury Department will also be required to operate a public awareness campaign so that taxpayers will know that they need to check to be sure that someone preparing their tax returns for a fee is qualified.

The third set of provisions would directly address the problems with refund anticipation loans (RALs), which is a problem throughout the country, but is particularly bad in New Mexico. First, this bill requires refund loan facilitators to register with the Treasury Department. Refund loan facilitators are those people who solicit, process, or otherwise facilitate the making of a refund anticipation loan in relation to a tax return being electronically filed. The legislation also requires these refund loan facilitators to properly disclose to taxpayers that they do not have to get a RAL in order to file their return electronically, as well as clearly disclose what all the costs involved with the loan. Finally, the refund loan facilitators must disclose to taxpayers when the loans would allow their refunds to be offset by the amount of the loan. Failure to follow these new rules will empower Treasury to impose penalties as appropriate. Like the credentials required for preparing returns, the Treasury Department would need to operate a public awareness campaign to educate the public on the real costs of RALs as compared to other forms of credit. This program will be funded, at least in part, by amounts collected from penalties imposed on refund loan facilitators.

The last section of the bill is an issue that my colleague from Hawaii, Senator AKAKA, has been actively working on for the last several years. This provision would authorize the Treasury Department to award grants to financial institutions or charitable groups that help low income taxpayers set up accounts at bank or credit union. Because many taxpayers do not have checking or savings accounts, their refund from IRS cannot be electronically wired to them. The alternative is to have the check mailed to the taxpayer or to have the refund immediately loaned to the taxpayer in the form of a RAL. Of course, getting people to set up a checking or savings account for purposes of receiving their tax refund will also have the benefit of getting many of these people to start saving for the first time.

Before I conclude, I would specifically like to thank Anita Horn Rizek from the Finance Committee for her tireless dedication to improving our nation’s tax system and ensuring that all taxpayers are treated fairly regardless of their income class. Without her efforts this legislation would not have been possible.

I hope my colleagues will join with us to ensure that another tax year does

not go by without making these modest changes. In order for our voluntary tax system to continue to function, taxpayers must have access to tax professionals with the highest ethical standards and greatest substantive knowledge possible. This bill will go a long way toward maintaining the integrity of the tax administration system.

I ask unanimous consent that the text of the bill and an analysis of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

ANALYSIS OF TAXPAYER PROTECTION AND ASSISTANCE ACT

OPR discipline is imposed after a hearing before an administrative law judge or as a result of an agreement between the OPR and the representative. Little is known about the basis for these actions, because the current practice is to publish only the identity of the representative, the disciplinary action taken; and the effective date. The bill would open the process to the public, providing greater transparency and accountability for both the representatives and the OPR.

Following the practice of many State attorney discipline processes, the bill provides that proceedings before an administrative law judge are open to the public. These proceedings are initiated by the Director of the Office of Professional Responsibility after the representative has been notified of the proposed charges, and has had an opportunity to respond to the Director. In many cases, the representative agrees with the Director that a violation of the rules of conduct has occurred, and agrees to accept a disciplinary action without a hearing before an

administrative Judge. When discipline is imposed based on such an agreement, the bill provides that the Director will provide summary information about the conduct which gave rise to the sanction.

There is a longstanding provision of 26 USC 6103, permitting taxpayer information to be disclosed in proceedings brought to impose discipline under 31 USC 330. The bill provides a limitation on the disclosure of information about the client, allowing the administrative law judge to decide whether the client information is necessary to understand the nature, scope or impact of the misconduct. In cases where discipline is imposed without bringing the matter before an administrative law judge, the Director makes this determination. The bill also provides a general protection for medical information, the release of which would be an unwarranted invasion of personal privacy. For example, when a practitioner offers evidence of physical or mental health problems to explain his or her conduct, the release of that medical information in a proceeding may be inappropriate.

Mr. AKAKA Mr. President, I am proud to cosponsor the Taxpayer Protection and Assistance Act of 2005. I thank Senator BINGAMAN for introducing this bill and working closely with me over the years to protect taxpayers and expand access to financial services. I also appreciate all of the efforts of Senators BAUCUS, SMITH, GRASSLEY, and PRYOR on this important piece of consumer protection legislation.

The earned income tax credit (EITC) helps working families meet their food, clothing, housing, transportation, and education needs. Unfortunately, EITC refunds intended for working families are unnecessarily diminished by excessive tax preparation fees and the use of refund anticipation loans (RALs). According to the Brookings Institution, an estimated \$1.9 billion intended to assist low-income families via the EITC was received by commercial tax preparers and affiliated national banks to pay for tax assistance, electronic filing of returns, and high-cost refund anticipation loans in 2002. Interest rates on RALs can range from 97 percent to more than 2,000 percent. The interest rates and fees charged on this type of product are not justified given the short duration and low repayment risk of this type of loan.

This legislation is a good start towards improving the quality of tax preparation services, providing relevant and useful disclosures about the use of RALs, and expanding access to low- and moderate-income families to mainstream financial services. The Act will provide the Department of the Treasury with the authority to regulate individuals preparing federal income tax returns and other documents for submission to the Internal Revenue Service. Fifty-seven percent of EITC overclaims were made on returns put together by paid preparers. This Act requires examinations, education, and oversight of paid preparers and urges citizens to utilize the services of an accredited or licensed tax preparer. This should improve the quality of tax preparation services available to our citizens.

In addition, the Act will require RAL facilitators to register with the Department of the Treasury, and comply with minimum disclosure requirements intended to improve the understanding of consumers about the costs associated with RALs. The Act also requires that the Department of the Treasury conduct a public awareness campaign intended to improve the knowledge of consumers about the costs associated with RALs. We need consumers to know more about the high fees associated with RALs and what alternatives are available, such as opening a bank or credit union account and having their refund directly deposited into it.

I am pleased that authorization language for a grant program to link tax preparation services with the opening of a bank or credit union account is included in this legislation. It is estimated that four million EITC recipients are classified as unbanked, and lack a formal relationship with a financial institution. Approximately 45 percent of EITC recipients pay for check cashing services. Check cashing services reduce EITC benefits by \$130 million. Having a bank account allows individuals to take advantage of electronic filing, thus eliminating the excessive fees that check cashing services and refund anticipation loan providers assess. An account at a bank or credit union provides consumers alternatives to rapid refund loans, check cashing services, and lower cost remittances. In addition, bank and credit union accounts provide access to products and services found at mainstream financial institutions, such as savings accounts and reasonably priced loans.

This grant program builds upon the First Accounts initiative which has funded pilot projects that have coupled tax preparation services with the establishment of bank accounts. An example of such a project is the partnership that has been established by The Center for Economic Progress in Chicago. We need more of these types of programs intended to provide much needed tax preparation assistance, and encourage the use of mainstream financial services.

I urge all of my colleagues to support this legislation. This is an important first step towards improving the quality of tax preparation services. I look forward to continuing to work with my colleagues on additional consumer protections and initiatives to bring more people into mainstream financial services, such as what I included in S. 324, the Taxpayer Abuse Prevention Act.

By Mr. BINGAMAN:

S. 833. Mr. BINGAMAN. Mr. President, I ask unanimous consent that the text of the bills be printed in the RECORD.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

S. 833

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Workforce Investment for Next-Generation Technologies Act" or the "WING Act".

SEC. 2. FINDINGS.

Congress finds the following:

(1) Science- and technology-based industries have been and will continue to be engines of United States economic growth and national security.

(2) The United States faces great challenges in the global economy from nations with highly trained technical workforces.

(3) Occupations requiring technical and scientific training are projected to grow rapidly over the next decade, at 3 times the rate of all occupations (according to Science & Engineering Indicators, 2002).

(4) The need for trained technology workers in national security fields has increased as a result of the events of September 11, 2001.

(5) National certification systems are well established and accepted in fields such as health and information technology and have succeeded in attracting more workers into those fields.

(6) Business and workers could both be well served by expanding the certification concept to other high technology industries.

(7) National certification systems allow workers to develop skills transportable to other States in response to layoffs and other economic changes.

(8) National certification systems facilitate interstate comparisons of education and training programs and help identify best practices and reduce cost and development redundancies.

(9) National certification systems promote quality and encourage educational institutions to modernize programs to ensure graduates pass industry-required exams.

(10) National certification based on industry-validated skill standards introduces stricter accountability for technical and vocational education programs.

(11) Certification signals value to employers and increases applicants' employability.

(12) Certification offers a planned skill development route into employment or professional advancement for working adults and displaced workers.

(13) The National Science Foundation's Advanced Technological Education Program, authorized by Congress in 1992, has created national centers of excellence at community colleges that have established unique linkages with industry to prepare individuals for the technical workforce under the program.

(14) The Advanced Technological Education Program should be expanded to all institutions of higher education, as the Nation should invest more resources in training and education programs that are responsive to marketplace needs.

(15) The one-stop delivery systems authorized under the Workforce Investment Act of

1998 have proved to be effective providers of information and resources for job seekers.

(16) The one-stop delivery systems offer special opportunities for directing displaced workers to certification programs that build skills for technical fields where rewarding jobs are plentiful.

SEC. 3. PURPOSES.

The purposes of this Act are as follows:

(1) To increase the numbers of workers educated for employment in high technology industries.

(2) To align the technical and vocational programs of educational institutions with the workforce needs of high-growth, next generation industries.

(3) To offer individuals expanded opportunities for rapid training and retraining in portable skills needed to keep and change jobs in a volatile economy.

(4) To provide United States businesses with adequate numbers of skilled technical workers.

(5) To encourage a student's or worker's progress toward an advanced degree while providing training, education, and useful credentials for workforce entry or reentry.

By Mr. CRAIG (for himself and Mr. BURNS):

S. 835. A bill to amend the Internal Revenue Code of 1986 to allow a non-refundable tax credit for elder care expenses; to the Committee on Finance.

Mr. CRAIG. Mr. President, today I am introducing the Senior Elder Care Relief and Empowerment Act—the SECURE Act.

The SECURE Act would provide eligible taxpayers with a nonrefundable tax credit equal to 50 percent of qualified expenses incurred on behalf of senior citizens above a \$1,000 spending floor.

The Senate Special Committee on Aging, which I chaired in the 108th Congress and of which I remain a member, held several hearings over the last couple years on different facets of the growing long-term care crisis in this country. A major concern of mine is that the Federal long-term care policy mix may not have the right incentives—especially when it comes to the tough choices faced by families who want to care for their frail and aging relatives.

More and more families are facing the stress and financial difficulties that come with caring for their aging parents.

It is critical to note that families, not government, provide 80 percent of

long-term care for older persons in the United States. This is an enormous strength of our long-term care system. The U.S. Administration on Aging reports that about 22 million people serve as informal caregivers for seniors with at least one limitation on their activities of daily living.

These caregivers often face extreme stress and financial burden—especially those we call the sandwich generation. The sandwich generation refers to those sandwiched between caring for their aging parents and caring for their own children.

It is difficult for families to balance caring for children and saving or paying for college, while at the same time struggling with financing care for frail and aging parents.

Many caregivers forgo job promotions, reduce their hours on the job, cut back to part-time, or take extended leaves of absence to stay at home and care for their aging family members. Direct expenses include the cost of prescription drugs, durable medical equipment, home modifications, and physical therapy.

Caregivers also endure emotional and personal health strains.

The average age of a caregiver is 57, with one-third over age 65 themselves. Caregivers suffer from higher rates of depression or anxiety. These conditions often lead to higher risk of heart disease, cancer, diabetes, or other chronic conditions.

For many families, the nursing home is the only solution for providing long-term care, and that can be a good choice. For other families, keeping aging and vulnerable relatives in their own home or in the caregiver’s home makes sense.

Family caregiving for aging and vulnerable relatives requires a flexible national response to ensure seniors and their families have the most appropriate high quality choices.

That is why I am introducing the SECURE Act. This legislation would help reduce the financial strain and related emotional and medical stress faced by family caregivers, as they care for their frail and aging parents, by providing much-needed tax relief for qualified expenses.

The SECURE Act would increase the eldercare choices available to families and has the potential to reduce the number of seniors forced to spend down their nest-egg in order to qualify for Medicaid services.

Qualified expenses include costs that are not reimbursable—those not covered by Medicare or other insurance—for physical assistance with essential daily activities to prevent injury; long-term care expenses, including normal household services; architectural expenses necessary to modify the senior’s residence; respite care; adult daycare; assisted living services that are non-housing related expenses; independent living; home care; and home health care.

Seniors with long-term care needs also would be able to use the tax credit on their own behalf.

The SECURE Act should not preclude seniors or those near retirement from purchasing long-term care insurance. The Act would provide tax relief for high-risk seniors who cannot qualify for long-term care insurance policies.

I invite my colleagues to cosponsor this compassionate legislation.

I ask unanimous consent that the text of the bill and a brief description be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:
